

VERINO

Tentura

Verino Distillery was founded in Argos in 1978 by Babis Spiliopoulos and is currently run by him and his son, Thanos Spiliopoulos. It produces high-quality tsipouro, varietal tsipouro, barrel-aged tsipouro, as well as an interesting range of liqueurs. The exceptional quality of these spirits is primarily due to the fine raw materials (grapes from top local wine producers – mainly Domaine Skouras), as well as to the art of traditional distillation, for which they utilize two, 1,300 liter copper pot stills.

TENTURA is a liqueur, of which the taste, aroma and color are attributed to the extracts of spices it contains, mainly cinnamon, clove and nutmeg. Its characteristic aromas and rich color are heightened by the traditional secret recipes of each and every producer and the local spices, citrus fruits and local wines used.

Tentura can be consumed anytime, anywhere: after a good meal, as a digestif, in a bar as a regular drink, neat or with soda or tonic or as a cocktail ingredient, mainly however chilled in a shot. Great in hot toddys, punches, and old fashioned, Verino's Tentura is as versatile as it is delicious!

Tentura makes an excellent accompaniment to dried fruits, walnuts and desserts.
